The AFC conducted a tour of the UC College of Business by Henning Larsen Architects and KZF Design on July 19. Nearly 40 supporters joined the AFC and Turner Construction for this informative tour of the dramatic new building. The internationally renowned Danish design firm has created an energetic new facility that will provide a progressive learning environment for students and faculty alike. Attendees learned about many of the innovative construction methods that were necessary to build the dynamic structure. Our thanks to Turner Construction and Bob Grace for conducting the tour of the facility and KZF Design and Doug Marsh for providing an overview of the building design.

The AFC wishes to thank two of our long-time Trustees who have stepped down from the Board. Jay Schuermann, the 2014-15 President of the Board of Trustees stepped down from the Board in May after 10 years of service to the AFC. His leadership was indispensable in driving the AFC to achieve new goals. Lauren Kirk, the former Treasurer of the Board, also stepped down in July. Again her service to the AFC. His leadership was indispensible in driving the AFC to achieve new goals. Lauren Kirk, the former Treasurer of the Board, also stepped down in July. Again her service to the AFC.

Push Play, and share some refreshments with us.

The AFC will host SEEK CINCY, its first architectural scavenger hunt on October 16. With our focus on raising public awareness of the value of architecture and design in our community, the AFC is taking a new approach to engage the younger professional community by offering a fun event that will also educate participants about buildings and places in our city. Teams of 5 will start at the old Police Station and work downtown area. Check out the AFC website for more information on the tour and to reserve your seat on the bus. The top three teams that identify the most locations will receive prizes at a party immediately following the hunt at the old Police Station.

The AFC wishes to thank our LAB, meet other volunteers, enjoy a performance by the band, Push Play, and share some refreshments with us.

The new Gardner Neuroscience Institute and the Health Sciences Building are adjacent to each other and are under construction at the same time. These state-of-the-art facilities will dramatically change the character of the east campus. The sail-like facade of the Gardner Institute is visible from Martin Luther King drive and is already creating a buzz. Beth McGrew, University Architect, will speak, and Masser Construc- tion will provide tours of these dynamic buildings. Look for more information to be posted on the AFC website and to register.

The AFC is offering a bus tour of Columbus, Indiana on November 3 to experience this city that is recognized for its architectural innovation and design. This tour is a repeat of a very popular tour the AFC offered in 2010. The day-long event will give participants an opportunity to see over 40 significant buildings in the community by bus as well as tour two of the most iconic churches designed by Eliel and Eero Saarinen. Participants will enjoy lunch at Zaharakos Ice Cream Parlor followed by a walking tour of buildings in the downtown area. Check out the AFC website for more informa-

The AFC launched the eighth walking tour for the app that focuses on the Covington area. The goal of the ArchiTour Cincinnati app is to continue to grow and document the significant architecture throughout our community. The eighth walking tour provides information on 17 buildings of significance in the Covington community including the Cathedral Basilica of the Assumption, The Ascent, Mother of God Roman Catholic Church, and neighborhoods like the God Roman Catholic Church, and neighborhoods like the
